windy, patchy blue come + go

Slow start as the buggy was cold
Went around in the bus for awhile -
dump - no bears, no birds -

Back out to Gordon point in the
buggy - looked around there and
then went over to motel ~~for~~
Saw several bears - 3 by motel
and 4 by a couple of buggies -

Best part of this trip was sheer beauty
sun pale orange through clouds
& swirling snow - silhouettes & profiles
wind blown ~~snow~~ snow tendrils
of snow blowing over landscape - today
the ponds are frozen becoming more
homogenous as they lose their
concentricity, the sea begins to
freeze, like labored breathing it
rises & falls as the shoreline
becomes more & more congealed
out ~~at~~ ^{beyond} the point the ice was solid
except for huge cracks wandering
out to sea. One bear could

1850
be seen on the ice, walking
out. the other had bunched
down in snowbanks right
at the shoreline - a third
had dug out a big nest in
the ice + mud. He looked out
at us and then tucked his head
down into the warmth of his bed
